INSTITUTE OF INNOVATION AND QUALITY ASSURANCE (IIQA)

ISO STANDARDS FOR LOGISTIC COMPANY

ISO CERTIFICATION FOR LOGISTIC COMPANY

ISO (International Organization for Standardization) is an independent, non-governmental international organization with a membership of 167 National standards Bodies. Through its members, it brings together experts to share knowledge and develop voluntary, consensus-based, market relevant International Standards that support innovation and provide solutions to global challenges.

Since only the globally approved benchmarks can assure safety management to the services provided by Logistics Company. ISO certification is the need to oblige the clients that the services provided by the transport & logistics company are as per the universally acknowledged standards. One can really feel the ultimate need for ISO Certification at each & every stage while in the supply network.

1. ISO9001:2015(Quality Management System)

The ISO 9001 certification will prove that your logistics services are customer-centric and are focused on delivering steady, and qualitative services. This all-encompassing ISO Standard guarantees that best practices are being followed that help to boost productivity, drive ceaseless improvement, and add to the proficiency of the supply chain.

2. ISO 14001:2015 (Environment Management System)

The ISO 14001 Standard will assist you in evaluating, screening, and minimizing the adverse environmental impact of your logistics activities. With the help of efficient natural resource management and waste management, you can enhance your corporate image among your clients. This will further help you to expand your clientele and will also help you recognize new cost-saving modes

3. ISO 27001:2022 (Information security management system)

The management systems outlined in ISO standards benefit the processes and procedures of your supply chain.
