ENSURING QUALITY MANAGEMENT
SYSTEM IN YOUR ORGANIZATION

About Us

Institute of Innovation and Quality Assurance (IIQA) is established by a highly professional and dedicated team to provide their clients with practical and creative solutions for overcoming their business challenges with achieving sustainable growth. IIQA has a mission to be the Nation's leading agency to establish a quality culture in Nepal by improving the system, products, and services through the implementation of reliable and globally recognized mechanisms. It had been contributing to the field of training, auditing, certification, Project management, technical advisory, and so on since 2010 in Nepal. IIQA in partnership with TnV is providing IAF accredited certificates in Nepal.

ISO Certification for Cement Industries

ISO (International Organization for Standardization) is an independent, non-governmental international organization with a membership of 167 National standards Bodies. Through its members, it brings together experts to share knowledge and develop voluntary, consensus-based, market-relevant international Standards that support innovation and provide solutions to global challenges. Since only the globally approved benchmarks can assure the safety management of the services provided by any Company, ISO certification is the need to oblige the clients that the services provided by the cement industries are as per the universally acknowledged standards. One can really feel the ultimate need for ISO Certification at each & every stage while in this field.

ISO Standards for Cement Industries

ISO 9001:2015 (Quality Management System)

The ISO 9001 certification proves that your services are customer-centric and are focused on delivering steady, and qualitative services. This all encompassing ISO Standard guarantees that best practices are being followed that help to boost productivity, drive ceaseless improvement, and add to the proficiency of the supply chain.

ISO 14001:2015 (Environment Management System)

The ISO 14001 Standard will assist you in evaluating, screening, and minimizing the adverse environmental impact of your business activities. With the help of efficient natural resource management and waste management, you can enhance your corporate image among your clients. This will further, help you to expand your clientele and will also help you recognize new cost-saving modes.

ISO 45001:2018 (Occupational Health and Safety Management System)

ISO 45001 is the world's international standard for occupational health and safety, issued to protect employees and visitors from work-related accidents.

Integrated Management System (ISO 9001, 14001, 45001 etc.)

An integrated management system (IMS) combines various management systems into a single, overall comprehensive, and harmonized management system. The combined approach provides a valuable overview of important business processes, creates significant synergies and pools resources, thereby forming a strong foundation for modern enterprises

Steps for ISO Certification
